SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Nurse Corps Loan Repayment Program

OMB No. 0915-0140-Revision

Abstract: The Nurse Corps Loan Repayment Program (Nurse Corps LRP) assists in the recruitment and retention of professional Registered Nurses (RNs) by decreasing the financial barriers associated with pursuing a nursing education. RNs in this instance include advanced practice RNs (e.g., nurse practitioners, certified registered nurse anesthetists, certified nurse-midwives, and clinical nurse specialists) dedicated to working at eligible health care facilities with a critical shortage of nurses (i.e., a Critical Shortage Facility) or working as nurse faculty in eligible, accredited schools of nursing. The Nurse Corps LRP provides loan repayment assistance to these nurses to repay a portion of their qualifying educational loans in exchange for full-time service at a public or private nonprofit Critical Shortage Facility (CSF) or in an eligible, accredited school of nursing.

A 60-day notice was published in the **Federal Register** on October, 10, 2019 vol. 84, No. 197; pp. 54617-51619.

Need and Proposed Use of the Information: This information collection is used by the Nurse Corps program to make award decisions about Nurse Corps LRP applicants and to monitor a participant's compliance with the program's service requirements. Individuals must submit an application in order to participate in the program. The application asks for personal, professional, educational, and financial information required to determine the applicant's eligibility to participate in the Nurse Corps LRP.

The revised information collection request includes a new form and updates to existing forms for the Nurse Corps LRP in order to expand the service options for awarded participants, promote the use of telehealth for delivering care throughout the nation especially in rural areas, and to reduce the application burden on respondents.

New Form #1—Applicants will be asked to submit a Disadvantaged Background Form. This new form asks the applicant's site Point of Contact to certify whether the applicant is from a disadvantaged background. The form provides eligibility criteria for the determination.

Updated Form #1—The Participant Semi-Annual Employment Verification Form will be updated to include additional information about the participant's service including information about telehealth services and whether they work at multiple CSF sites. Telehealth helps expand the reach of providers especially in rural areas where medical service sites are more remote. The information collected will assist Program with determining the impact and utilization of telehealth services in various health care settings which will be used to inform our telehealth policies. Enabling multiple CSF site service will also allow greater flexibility for providers who

rotate or split time between multiple sites which benefits both the participants and the underserved communities—especially in our Federally Qualified Health Centers which support many of our Nurse Corps Nurse Practitioners.

Updated Form #2—The Nurse Corps LRP application will include questions for applicants to provide information regarding telehealth services, multiple CSF sites, and verification of base salary to determine the debt to salary ratio used to rank applicants for award consideration. The application will also be updated to identify applicants eligible for Nurse Corps LRP psychiatric nurse practitioner funding.

Likely Respondents: Professional RNs or advanced practice RNs who are interested in participating in the Nurse Corps LRP and official representatives at their service sites.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.
